

Introducing our new Norfolk and Waveney

LEGACY NURSES

Teresa Coe

“What we really want to do is to be a contact for student nurses, learners and qualified staff, to help them in the early stages of their career. This will enable them to think about where they want to go with their career and what they need to do to get where they want to go. I think this year has been a challenging year for everyone and I think a little bit of extra support and helping the wellbeing of students and staff is going to be really beneficial. I feel really passionate about staff wellbeing and I think some students definitely feel like they have missed out on a lot of opportunities this year. They have learned things from last year that are going to be so valuable in their career, but I understand that they feel that they have really missed out on some of their experiences.”

If you are an educational lead, a learner or if you feel that your area would benefit from the support of the legacy nurses, you can contact a member of the workforce team at:
