

Introducing our new Norfolk and Waveney

# Legacy Mentors

**Legacy Nurse: Lynn Fanning**

I started my nursing career in 1984 as a student RGN/RSCN at Great Ormond Street hospital and the Royal London Hospital. I worked for 1 year on a paediatric medical ward at Queen Elizabeth hospital for sick children after qualifying and then went on to undertake midwifery training. I continued working as a qualified midwife for 10 years before leaving in 2001 to undertake a BA(Hons) in Specialist Community Practice to work as a health visitor in Luton, Bedfordshire.

Throughout my nursing, midwifery and health visiting career I have had the opportunity to mentor and support various levels of students. I have also completed the Practice Teacher module in order to mentor students completing the Specialist Community Practice degree pathways. I have always recognised the importance of mentoring and supporting students in practice, passing on knowledge and skills to the next generation of nurses.

**If you are an educational lead, a learner or if you feel that your area would benefit from the support of the legacy mentors:**
